

AMUNDI FUNDS

Equity Statistical Arbitrage (EUR)

Simplified Prospectus – November 2010

This simplified prospectus contains information about Amundi Funds Equity Statistical Arbitrage (EUR), a sub-fund (the “Sub-Fund”) of Amundi Funds (the “Fund”), an umbrella fund currently organised as a “société d’investissement à capital variable” created as an unincorporated mutual investment fund (“Fonds commun de Placement”) on July 18, 1985 under Luxembourg law and qualifying as an undertaking for collective investment in transferable securities (UCITS) under part I of the Luxembourg law of 20 December 2002. Its registered office is situated at 5 allée Scheffer, L-2520 Luxembourg. The Fund is registered under number B 68.806 at the register of commerce at the district court of Luxembourg.

The Fund contains a large number of other sub-funds, which are described in the Fund’s full prospectus. For further details, the current full prospectus of the Fund should be consulted. Terms in capitals where not defined in this document are defined in the Fund’s full prospectus.

For details about the Sub-Fund’s holdings please see the Fund’s most recent annual or semi-annual report. The full prospectus and the latest periodical reports may be obtained on request, free of charge, from Amundi Luxembourg or, as the case may be, the local Representative in the relevant country.

Subscriptions may only be based on the latest prospectus and local offering document (if applicable), as authorised by the Supervisory Authority of the relevant country.

In the event of any inconsistency, ambiguity or discrepancy in relation to the meaning of any wording or phrasing in any translation, the English version shall prevail.

PART A: GENERAL INFORMATION

■ Introduction to the Absolute Return Sub-Funds

Unless otherwise mentioned in a particular Sub-Fund's description and always subject to all applicable investment limitations (see "Further Information: Investment Powers and Limitations" of the full prospectus), the following principles will apply to the Sub-Funds:

- Each Sub-Fund may invest in financial derivative instruments for hedging purpose and for the purpose of efficient portfolio management, while following, on the level of the underlying values, the investment limit(s) laid down in the investment policy of each Sub-Fund.
- Each Sub-Fund is also authorized to employ techniques and instruments relating to transferable securities and money market instruments under the conditions and within the limits laid down under Chapter XX "Further Information", B "Additional Investment Restrictions", points 1.4 to 1.6 of the full prospectus.

■ Introduction to the Absolute Return Sub-Funds - Equity Arbitrage Sub-Funds

The objective of the Equity Arbitrage Sub-Funds is to deliver a performance at least in line with the objective mentioned for each Sub-Fund, by exploiting inefficiencies between equity markets through the use of arbitrage strategies (long/short positions) and fundamental analysis.

The Sub-Fund aims to maintain a globally neutral exposure to equity markets and to deliver a performance as uncorrelated as possible to the market direction.

To achieve this objective, the Investment Manager sets up strategic and tactical positions as well as arbitrages on all equity markets.

Each Sub-Fund may invest in:

- Equities
- Money markets instruments
- Bonds
- Units/shares of UCITS and/or other UCIs up to 10% of its net assets
- OECD or non OECD currencies
- Cash and/or deposits.

Each Sub-Fund may invest in financial derivative instruments for the purpose of efficient portfolio management and for hedging against and/or overexposing to market, volatility, interest rates, and currency risks. Financial derivative instruments include futures contracts, options, forwards swaps, variance swaps on equities and/or equity indexes, contracts for difference (including contracts for difference on equities, equity indices or baskets of equities).

■ Investment objective and policy

The objective of this Sub-Fund is to outperform the daily compounded EONIA (Euro Overnight Index Average) by more than 4.00% p.a. over a minimum investment horizon of 4 years after taking into account charges.

To achieve this objective, three categories of strategies may be used:

- Systematic stock picking strategy: securities selection based on two arbitrages models (mean reverting model, which takes advantage of the markets' excessive behaviour and momentum model, which takes advantage of trends commonly observed in prices)
- Global macro strategy: identification of the systematic stock picking bias and implementation of directional and non directional strategies.
- Tactical alpha strategy: strategies centered on volatility and trading.

Risk allocation between those strategies is managed by the Value at Risk. The Fund Manager will concentrate the risk allocation on the systematic stock picking strategy while the global macro and tactical alpha strategies will be used to enhance the risk-return profile.

The Investment Manager aims to maintain, over the recommended investment horizon, a level of annual volatility between 4 and 6%.

The "Eonia compounded"(OIS method) index represents the reference indicator of the Sub-Fund.

The base currency of the Sub-Fund is Euro.

■ Risk profile

Investments in Absolute Return Sub-Funds are primarily subject to interest rate, credit and prepayment risks relating to bonds. In addition, the assets of such Sub-Funds may also be affected by market fluctuations due to the investments in financial instruments and equities.

Statistical monitoring is performed for each of the Absolute Return Sub-Funds. Thus, this monitoring does, under no circumstances, guarantee a minimum performance. Investors are informed that they might not recover all or part of their initial investments.

The mainly identified risks of Equity Arbitrage Sub-funds are Exchange Risk, Interest Rate Risk, Credit Risk, Market Risk, Liquidity Risk, Risks attached to transactions into derivatives, Management and Investment Strategy Risk as well as Volatility Risk.

In general terms, none of the Absolute Return Sub-Funds seeks a leverage effect through the commitments that imply the derivatives outlined above. The fact remains that, in absolute terms, any Sub-Fund using derivative instruments for whatever use, can be considered as integrating a leverage effect to some extent. Furthermore, in accordance with the provision of the 2002 Law, the Fund is not authorised to borrow, except the borrowing made on a temporary basis, those permitting the acquisition of immovable property essential for the direct pursuit of its business as well as back-to-back loan in relation with the acquisition of currencies.

It should be noted that Shares are neither guaranteed nor principal protected and that there can be no assurance that Shares are redeemed at the price for which they have been subscribed.

■ Typical investor profile

In the light of the Sub-Fund's investments, objectives and strategies, they are appropriate for investors who seek to protect their investments from volatile fluctuations. The aim of this Sub-Fund is to achieve a stable total return through a combination of capital appreciation and income.

An investment in the Sub-Fund is not a deposit in a bank or other insured depository institution. Investment may not be appropriate for all investors. The Sub-Fund is not intended to be a complete investment programme and investors should consider their long-term investment goals and financial needs when making an investment decision about the Sub-Fund. An investment in the Sub-Fund is intended to be a long-term investment. The Sub-Fund should not be used as a trading vehicle.

■ Shares Classes/Allocation of earnings

Shares of the Sub-Fund are divided into several Classes available to investors according to their quality. Shares may be further subdivided into Distribution and Accumulation Shares. Accumulation Shares automatically retain, and re-invest, all attributable incomes within the Sub-Fund when Distribution Shares pay any attributable income in the form of a dividend. This can either be paid by bank transfer into your bank account, or by cheque sent to your home address, in both cases in the currency specified (please note that bank transfer and foreign exchange costs will be borne by the investor).

Accumulation Shares in non-certificated registered form may appear as the most efficient way for investors to manage their account. Indeed they enable investors to give conversion and redemption instructions by letter, fax or telex with no need to return any Share certificates.

Share Classes	Share Categories Available *	Dividend Payment for Distribution shares	Authorised Investors	Minimum Initial Subscription	Minimum Subsequent Subscription
AE Class	A / D	In September	All Investors	None	None
SE Class	A		All Investors. Shares only available through a network of distributors specifically authorised by the Board.	None	None
FE Class	A		All Investors. Shares only available through a networks of distributors specifically authorised by the Board. Difference with Class S : Reduced Subscription Fee	None	None
ME Class	A		Italian GPF and UCITS, UCIs or mandates authorized by the Board	None	None
IE Class	A / D	In September	Institutional Investors investing for their own account or for individuals within the framework of a collective savings or any comparable scheme as well as UCITS.	Equivalent in EUR of USD 500,000	None
OE Class	A		Institutional Investors specifically authorized by the Board	Equivalent in EUR of USD 500,000	None

■ Fees and expenses

Fees charged to the investors:

Share Classes	Maximum subscription fee	Maximum conversion fee	Maximum redemption fee
AE Class	4.50%	1.00%	/
SE Class	3.00%	1.00%	/
FE Class	/	/	/
ME Class	2.50%	1.00%	/
IE Class	2.50%	1.00%	/
OE Class	5.00%	1.00%	/

Operating expenses charged directly to the Sub-Fund and reflected in the net asset value:

Share Classes	Maximum Management Fee	Maximum Administration Fee	Maximum Distribution Fee	« Taxe d'abonnement »*	Performance fee
AE Class	1.10% (0.80% ¹)	0.30% p.a. of the NAV	/	0.05% p.a.	30% over the Performance objective: EONIA + 4% p.a.
SE Class	1.50%	0.30% p.a. of the NAV	/	0.05% p.a.	
FE Class	1.50%	0.30% p.a. of the NAV	0.40%	0.05% p.a.	
ME Class	0.60% (0.55% ¹)	0.30% p.a. of the NAV	/	0.01% p.a.	
IE Class	0.60% (0.55% ¹)	0.20% p.a. of the NAV	/	0.01% p.a.	
OE Class	/	0.20% p.a. of the NAV	/	0.01% p.a.	/

¹ Until January 31, 2011

* see paragraph Taxation of the Fund.

A. Mechanism applicable until December 31, 2010:

As described in the above table, a performance fee has been added to the Management fee for this Sub-Fund. The structure of the Performance fee is defined as follows:

Performance of the relevant Sub-Fund is calculated on the basis of the change in Net Asset Value per Class of Share (Performance Fee excluded) multiplied by the number of Shares of the day.

The performance of each Class is compared with the Performance Base. The compounded Performance Base applies to amounts invested during the concerned period (i.e. net asset value at the beginning of the concerned period, added to net subscriptions/redemptions over the same period). Each net collection (subscriptions – redemptions on day x) shall contribute towards forming the provision for Performance fee over the year or to the amount of Performance fee due at the end of the accounting year

The period (the "Period") to be considered for the Sub-Fund corresponds to a civil year.

General:

- If, over the Period, the relevant Class outperforms the relevant Sub-Fund's Performance Base, the variable proportion of Management Fees shall be 30% of the difference between the cumulative performance of the relevant Class and the relevant cumulative compounded Performance.
- If, during the Period, the relevant Class outperforms the Performance Base from the start of the Period calculated over the same period, such outperformance shall be subject to a provision for Performance Fee when the redemption value (i.e. the Net Asset Value per Class of Share) is calculated.
- If, over the Period, the relevant Class underperforms the aforementioned Performance Base, the variable proportion of the Management Fees shall be nil.
- If the relevant Class underperforms the Performance Base between two redemption values, any provision previously posted shall be readjusted by way of provision adjustment, the upper limit on provision re-adjustment being the sum of prior allocations over the period from the start of the Period.
- The said variable proportion shall only be definitively due at the close of each Period if, over the Period, the relevant Class has outperformed the Performance Base.
- The above Performance fee shall be directly charged to the statement of operations of each Class of Shares of the relevant Sub-Fund.
- An independent auditor shall verify the method of calculating the Performance fee.

B. Mechanism applicable as from January 1, 2011:

Observation Period

The Observation Period for the Performance Fees calculation for **Equity Statistical Arbitrage (EUR)** purpose begins January 1 and ends as December 31.

The performance fee is calculated separately for each Class of Shares. It shall be accrued daily, deducted and paid annually for each relevant Class of Shares as listed in the table above.

The performance fee is calculated as follows:

The Performance Fee is calculated by comparing the NAV of each Sub-Funds relevant Class of Shares and the reference asset (hereinafter the "Reference Asset").

The initial Reference Asset of the first Observation Period corresponds to the initial NAV of the Sub-Fund Class of Shares on December 31, 2010. The initial Reference Asset for the subsequent Observation Periods corresponds to the NAV of the Sub-Funds Class of Shares after deduction of all fees on the last Dealing Day of the previous Observation Period.

Any subsequent Reference Asset during an Observation Period corresponds to the Reference Asset of each relevant Class of Shares calculated on the previous Calculation Day, after taking into account subscription and redemption amounts of the Dealing Day, adjusted by the daily Performance Objective of the relevant Sub-Fund.

This means notably, the following:

- If over the Observation Period, the NAV of each relevant Class of Shares is higher than the Reference Asset, the Performance Fee will represent 30% of the difference between those assets. If over the Observation Period, the NAV of each Sub-Funds relevant Class of Shares is lower than the Reference Asset, the Performance Fee will be nil.
- If over the Observation Period, the NAV of each relevant Class of Shares is higher than the Reference Asset, a provision for Performance Fee will be accrued in the NAV calculation process. In the event that the NAV of each Sub-Funds relevant Class of Shares becomes lower than the Reference Asset, all accruals for Performance Fees previously booked will be reversed. The reversals of provisions may not exceed the sum of the prior allocations.
- In case of redemption, the proportion of the accrued provision corresponding to the number of shares redeemed shall be immediately crystallized and due to the Management Company.
- If, at the end of the Observation Period, the NAV of each Sub-Funds relevant Class of Shares exceeds the Reference Asset, the Performance Fee recorded will be allocated to Amundi Luxembourg and a new Period will begin.
- If, at the end of the Observation Period, the Reference Asset exceeds the NAV of each Sub-Funds relevant Class of Shares, no Performance Fee will be allocated to Amundi Luxembourg and a new Period will begin.
- The above Performance fee shall be directly charged to the statement of operations of each Class of Shares of the relevant Sub-Fund.
- The Auditor of the SICAV shall verify the method of calculating the Performance fee.

■ Taxation of the Fund

The Fund is not subject to any taxes in Luxembourg on income or capital gains.

The only tax to which the Fund is subject is the "Taxe d'abonnement". Such tax is payable quarterly based on the value of the net assets of the Fund at the end of the relevant calendar quarter at the rate of 0.05% per annum, decreasing to 0.01% for I Classes category, M Classes Category, O Classes Category, Money Market Sub-Funds and Reserve sub-funds.

Interest and dividend income receive by the Fund may be subject to non-recoverable withholding tax in the countries of origin.

■ Taxation of the Shareholders

Under present Luxembourg law, no tax is levied neither ordinary income nor capital gains. Only Luxembourg residents are subject to Luxembourg tax. However, in accordance with the European Union Savings Directive ("EUSD") effective from 1st July 2005, certain sub-funds are subject to a withholding tax when a Luxembourg paying agent makes distributions from and redemption of shares to investors residing in another Member State. Unless the individual investors specifically request to be brought within the EUSD exchange of information regime, such distributions and redemptions will be subject to withholding tax at the rate of 20% until 31/12/2010 and 35% thereafter.

Prospective investors should inform themselves of, and where appropriate, take advice on the laws and regulations (such as those relating to taxation and exchange controls) applicable to the subscription, holding and redemption of units in the country of their citizenship, residence or domicile.

■ NAV Calculation and Prices Publication

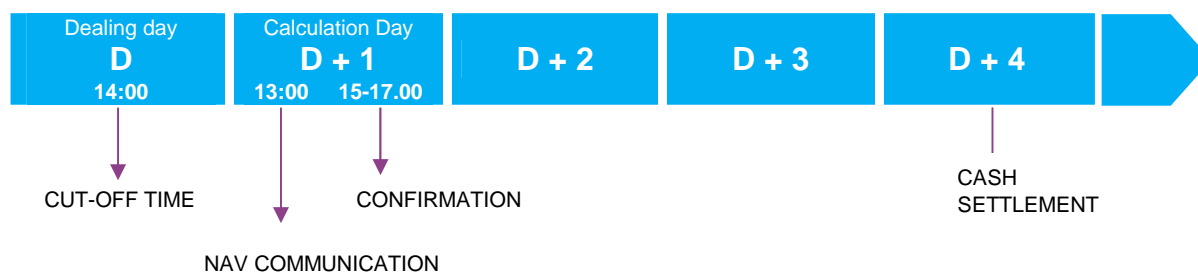

The Net Asset Value ("NAV") per Share of the Sub-Fund is calculated in Luxembourg on any Calculation Day and is dated from the Dealing Day being Business Day preceding the Calculation Day. A Business Day is defined as being any day during which banks are opened for business in Luxembourg.

The NAV per share of each Dealing Day will be available from the Administration Agent as well as on Reuters and will also be published in any national newspaper of a country in which the Fund is authorised for public distribution, if so decided by the Board.

■ Subscriptions / Redemptions and Conversions of Shares

Shares may be sold or redeemed (and/or converted) on any Dealing Day, at their respective Dealing Price (Net Asset Value) in accordance with the Articles of Incorporation. To subscribe / redeem or convert shares, instructions may be given by fax, telex or by post either to the Fund or to an authorised distributor. Allotment of shares will be executed following the timing set out in the schedules below (Luxembourg time).

DEALING TIMES

Allotment of shares is conditional upon receipt by the Custodian of cleared monies within four Business Days of the relevant Dealing Day. If timely settlement is not made an application may lapse and be cancelled. All applications will be duly confirmed by contract notes. Unless otherwise or clearly specified by the investor, shares will be purchased or redeemed at the Dealing Price calculated in the base currency of the Sub-Fund. In the absence of specific instructions, Shares will be issued as non-certificated accumulation Shares of the Classic class. If on any Dealing Day, the Fund receives request for redemptions (or conversions) of Shares equalling or exceeding 10 per cent of the number of Shares or of the assets of the Sub-Fund, it may declare that such redemptions (or conversions) are deferred until a Dealing Date such as all or certain investments of the Sub-Fund have been sold. Conversions from Shares of one Class of a Sub-Fund to Shares of another Class of either the same or different Sub-Fund are not permitted except if any investor complies with all the conditions required for the Class into which the conversion is made. Except in the case of a suspension of deferral or right to redeem or purchase Shares of the relevant Sub-Funds, a request for conversion, once made, may not be withdrawn. The Fund may temporarily suspend or restrict the issue, redemption and conversion shares if necessary in order to protect the Shareholders' interest .

■ Prohibition of Late Trading and Market Timing

Late Trading and Market Timing practices are strictly prohibited as further detailed in the Fund's full prospectus.

■ Performance of the Sub-Fund

The performance of the Sub-Fund is presented in the Part B Statistics attached hereto. Performance is expressed in the Fund accounting year. (1st July to 30 June). For more recent information investors may refer to the latest periodical reports available or consult Amundi Funds web site, www.amundi-funds.com.
